

Saturday Special, Sept. 5th

OUR SPECIAL THIS WEEK IS MORE
EXTENSIVE THAN USUAL.

There is something of an assortment to select from and the values are rare. We realize that at this time of the year many want something of the nature we offer this week to carry them through the season, and we know it is done at as little expense as possible. Our bargains on Saturday will help you out. They are of the good sort at the price of the cheapest. We do it to close the season.

Now for 69 Cents:

The Montpelier Country Club will hold a golf tournament tomorrow, and five cups will be presented. The tournament will be completed Monday.

SERIES OF WINTER SPORTS.

How the Young People of Switzerland Amuse Themselves in the Snow.

"Winter Sports in Switzerland" is the title of a series of pictures which will be shown in the Lyman H. Howe exhibition in Barre opera house on Friday night, Sept. 11. It is a decidedly interesting series.

First of all there is a battle with snow balls, the opposing armies of boys endeavoring to drive each other away. A ski jumping carnival is something new. It shows the young people jumping great distances with the aid of long poles, something on the burlesque order. Many of them miss their footing and tumble and roll about in the snow, performing all sorts of gymnastics. A novel coasting scene is also shown, the coasters attempting to round a sharp curve while going at full speed. There are some ludicrous "spills," to be sure. A dangerous pastime, that of coasting at great speed down a hill and allowing the sled to go over a high board into space thrills the spectator. Many coasters are injured in this way. The series was secured by Mr. Howe at great expense.

PUBLIC NOTICE.

Parties living in the vicinity of street lamps are requested to take notice of the nights that the lights do not burn and thereby assist the lighting committee in procuring the best possible service.

Parties doing this will confer a favor by leaving a slip with the chief of police, the city clerk or any member of the board. Postal cards for this purpose may be procured from the city clerk.

John J. MacKenzie,
Chairman Lighting Committee.
Barre, Sept. 2d, 1903.

Who Will Claim Them?

SCIENCE SIFTINGS.

The moon moves round the earth at 2,273 miles an hour.

Jupiter has 4,560 eclipses of its various moons in one of its years.

The ear is a hydrodynamic rather than acoustic instrument, because variations of pressure and not sound waves are recorded by it.

The rays of radium are of three kinds. Those of one class are but feebly penetrating. Another class are negatively charged electrons moving at a high velocity, like those discovered in Crookes' tube. A third class is not deflected by a magnet and is highly penetrating, like those of Roentgen.

THE BIG CANAL.

What with danger of revolution and possibility of breach of faith on the isthmus, with more or less uncertainty in our own senate, the obstacles interposed by nature seem less formidable than those piled up by man.—Minneapolis Times.

If we do not build that canal by the way of Colon and Panama it may be taken for granted that no one else will be allowed to do so. Hence if we should now turn to Nicaragua the itching palms would have to go without the anticipated balm, and our friends of Colombia would be minus both canal and money.—Philadelphia Inquirer.

TOO LATE FOR CLASSIFICATION.

FOR SALE—Seven English Bull pups. Apply to C. D. Persons. 1471
